1 APPARATUS FOR SHARP IMPLEMENT TRANSFER, 2 COUNTING AND TEMPORARY DISPOSAL OR STORAGE

3

ABSTRACT OF THE DISCLOSURE

The invention relates to a multipurpose device for 4 the safe handling of sharp surgical implements and 5 comprises a molded thermoplastic body that includes a 6 container portion and a scalpel holder section. 7 material in the container holds scalpel blades and/or 8 needles after use and magnetic material on the holder 9 section presents a needle for pick-up by a needle holder. 10 The scalpel holder section supports a scalpel or scalpels 11 in cantilever fashion for convenient gripping and 12 withdrawal by a surgeon. The body has a shape and 13 surface characteristics that assures a secure hand grip 14 even in wet conditions. 15
